

CSS7102 – Mini Project

Review 1 (CA-01) — Problem Statement Document

Problem Statement Number	PSAIAC_60
Project Title	Autonomous AI Agent for IT Helpdesk
Organization	Presidency School of Artificial Intelligence and Advanced Computing (PSAIAC)
Category	Software
Difficulty Level	Not specified

Problem Description

IT teams spend 40% of time on repetitive L1 tickets. Industry needs an autonomous AI agent that resolves password resets, software installs, and access requests without human involvement.

Repository note: This document records the project problem statement used for Review 1. It is not represented as an official university-approved PDF.
